

INSTALLATION SHEET FOR B100-24SAE STYLE PROPORTIONAL DIVIDER KEEP WITH PRODUCT UNTIL INSTALLED

ADDITIONAL SHEETS MAY BE PRINTED OUT FROM OUR WEBSITE WWW.BRAND-HYD.COM UNDER PRODUCT CATALOG SECTION

Mounting Surface – The valve must be mounted on a flat surface. It is important not to bend or twist the casting when mounting because this may cause the comp spool to bind.

What happens when I block one outlet port? – The compensation spool will try to send more flow to the blocked port. This in turn will block off flow to the other port.

Can I paint my valve? - Painting the valve is okay as long as all the ports are properly plugged.
