

Internet Conferencing!

Interactive Webinars

At Brand Hydraulics, we are focused on providing the best customer service in the industry. That's why we're offering a new way for customers to access information on any of our products through live Webinar sessions. You'll learn about new products and features, view schematics and AutoCAD drawings and much more – all from a Brand Hydraulics expert. Best of all, you'll be able to ask questions or request information at any time during the presentation!

It's easy. Call our sales or engineering department and we'll provide you with a password. Then log in during the scheduled Webinar date and time. We can also set up one-on-one Webinars on short notice if you need to view valve schematics, review new products or simply see a live demonstration of any Brand product.

- Convenient and easy to use
- Works on any computer with Internet access
- No software or special equipment required
- Great for training new employees
- Valuable refresher course for veteran employees
- Live chat and video feature to ask questions or request information

Visit www.brand-hyd.com today for a list of seminar times and dates. Space is limited. Sign up today.
